Mulghar Govt. High School, Khulna, Bangladesh | January 2015 — January 2017

---

## PROJECTS

### Student Management System (Web Application)

**Technologies:** PHP(Laravel), MySQL, HTML, CSS, JS, Bootstrap

- Developed a full-stack student management with responsive user interface for all device sizes
- Implemented student registration, course management, and result handling features.
- Used MySQL database with optimized SQL queries for fast data access.
- Added secure login and role-based access for admin and staff users..

### Cycle Selling Website (E-Commerce Web Application)

**Technologies:** PHP(Laravel), HTML, Tailwind CSS, JS, MySQL

- Developed an e-commerce website for online cycle selling with a clean and responsive design.
- Implemented product listing and shopping cart features for smooth customer purchases.
- Built an admin panel to manage cycle products and pricing.
- Used MySQL database to store and manage product and order data.

### AI-Based Fingerprint Blood Group Detection

**Type:** Academic / Research Project

- Developed a system to analyze fingerprint images for blood group prediction.
- Applied data preprocessing and feature extraction techniques.
- Evaluated model performance and planned web-based integration.

---

## ADDITIONAL SKILLS

- **Presentation Skills:** Proficient in preparing presentation slides and delivering audience focused.  
**Personal Attributes:** Hardworking, quick learner, adaptable to changing environments, and able to work independently or as part of a team.
-
